

**PROGRAM** 

#### ABOUT CONVERGING FUTURES

CLC 2014 will focus on the future of the legal profession. Converging Futures is about lawyers, judges and law students from across Canada coming together to explore, discuss, and debate issues facing the legal profession. Over two days, leading keynote speakers, interactive presentations and comprehensive PD sessions will help deepen your understanding of changes in the legal market and give you a renewed sense of optimism about the future.

Delegates will be the first to hear the results of the much anticipated CBA Legal Futures Initiative report. The report will offer ideas, approaches and tools to help Canadian lawyers remain relevant, confident and able to deliver the services clients want and need.

Get inspired, join the conversation and help shape the future of the legal profession at CLC 2014: Converging Futures.
